Hello from Simon, The Welly Farmer

“As busy farmers with a young family of four, we know what it’s like to have tears over frozen toes. That’s why we set about designing warm and comfortable wellies for children. We created the UK’s first kid’s wellies lined with neoprene for extra insulation. *The result?* It means our family all happily stay outside for longer and there’s no more crying over cold feet. We’ve called them *Warm Wellies*.”

Benefits of Warm Wellies:

- Really warm and very comfortable
- You only need one pair of socks!
- Handmade from natural rubber
- Lined with 4mm of neoprene (the stuff that wetsuits are made of)
- Reflective strips on back loops for extra safety
- Choice of green and purple
- (Now also available in adult sizes too)

The Warm Welly Company is based on a farm in the heart of Cumbria. We use farming family and friends as models and welly testers. To order, contact Simon Wood on 016977 41937 or visit
